# OUR STORY

Our journey began in 2015 when Marco, after making beer at home for his friends, decided to found a new brand called Unseen Creatures, named after the unseen bacteria with which he would later ferment his wild beers. With the opening of the taproom in December 2019, we began to create an unseen culture in Miami.

In 2022 a new creature would join the family. Joaquin came from Argentina with the idea of taking Unseen Creatures to the moon and beyond.
